ZOOM TEXT

Easy to See

- **1x to 36x Magnification**
Includes fractional powers of 1.25x, 1.5x, 1.75x and 2.5x.
- **Eight Zoom Window Types**
You choose which part of the screen is magnified.
- **New 'xFont' Advanced Text Magnification**
Displays the clearest magnified text possible, at all magnification levels. Once you've seen it, no other screen magnifier will do.
- **Color, Contrast and Brightness Controls**
Change screen colors to eliminate glare and reduce eyestrain.
- **Visible Pointers and Cursors**
Enhance the size and color of the mouse pointer and text cursor, making them easier to find and follow.

Easy to Hear

- **New 'NeoSpeech' Synthesizer Voices**
Human-sounding reading voices that are closer to the real thing than ever before. (English only)
- **Complete Screen Reading**
Program, typing and mouse echo options narrate all of your actions. ZoomText can speak as little or as much as you want.
- **Automatic Document Reading**
Sit back and let AppReader or DocReader read your documents, web pages and email, highlighting each spoken word along the way.
- **Reading Zones**
ZoomText's new Reading Zones let you instantly see and hear selected areas of your applications. Define up to 10 zones per application.

Easy to Use

- **Application Settings**
Save unique settings for each application that you use. As you switch applications, ZoomText automatically loads the desired settings.
- **Web Finder**
Quickly locate links and controls in any web page. Surf the web with greater speed and accuracy.
- **Desktop Finder**
Quickly find and launch programs and documents located in your My Documents folder, control panel and on your Windows desktop.
- **Text Finder**
Instantly locate words or phrases in any application or document window, then begin reading from any found location with AppReader.
- **Friendly User Interface**
Makes it easy to access and adjust all of ZoomText features using the mouse or the keyboard.
