

TCS to Present at the 25th Annual International Conference on Assistive Technology and Persons with Disabilities (CSUN)

TCS Associates will showcase the latest version of the NexTalk® Enterprise Solution, the best selling online video interpreting (VRI) solution for the deaf and hard of hearing, at the CSUN Conference taking place from March 24-27 at the Manchester Grand Hyatt Hotel in San Diego, CA.

Wheaton, MD (**March 22, 2010**) TCS Associates' Richard Krafsig will host a one hour educational seminar highlighting the main features of NexTalk and how they fundamentally improve employee accessibility and eliminate barriers to success in the workplace.

TCS would like to cordially invite you to the seminar entitled, "Making Telecommunications Accessible for Deaf and Hard-of-Hearing Employees Using NexTalk Enterprise Solution" scheduled to take place on Thursday March 25, 2010 at 1:50 PM PST in room DHH 2008.

NexTalk® Enterprise enables organizations to put deaf and hard-of-hearing workers on equal footing with the rest of their employees by adding text, video and voice capabilities to an existing office phone system.

More than ever before organizations are seeking communication solutions for employees with disabilities that offer true functional equivalence in the workplace. NexTalk® is increasingly being chosen by, corporations, universities, hospitals and government agencies for Section 508 compliance and ease of use.

CSUN is the longest-running and largest university-sponsored conference on technology for persons with disabilities, making it the ideal venue to showcase the NexTalk® software.

Sign Language interpreters will be provided upon request. Additional conference details and the complete presentation schedule can be found at <http://csunconference.org>.

About TCS Associates

TCS Associates, (<http://www.TCSassociates.com>), a Washington D.C total disability solutions firm, founded in 1982, is built upon the theory that information and technology should be accessible to all people. We believe that Assistive Technology and Communication Solutions can help all people excel in the workplace, education, and personal settings. We strive to educate manufacturers, organizations, and the general public on the importance of Assistive Technology and Communication, and we are committed to supporting them by providing our products & services.

About NexTalk

NexTalk, Inc. provides enterprise telecommunication solutions that enable government, commercial and non-profit entities to communicate and work seamlessly and effectively with

individuals who are deaf and hard-of-hearing. Its patented technology, best-of-breed products and services, and a customer base of hundreds of organizations and tens of thousands of users worldwide, demonstrate that NexTalk is the clear leader in deaf-accessible telecommunications.
